ABOUT THE AMERICAN MOTORCYCLIST ASSOCIATION

Since 1924, the AMA has protected the future of motorcycling and promoted the motorcycle lifestyle. AMA members come from all walks of life, and they navigate many different routes on their journey to the same destination: freedom on two wheels. As the world's largest motorcycling rights organization, the AMA advocates for motorcyclists' interests in the halls of local, state and federal government, the committees of international governing organizations, and the court of public opinion. The AMA sanctions more motorsports competition and motorcycle recreational events than any other organization in the world. AMA members receive money-saving discounts from many of the most well-known suppliers of motorcycle services as well as on gear and apparel, bike rentals, transport, hotel stays and more. Through the AMA Motorcycle Hall of Fame, the AMA preserves the heritage of motorcycling for future generations.

A History of AMA Supercross

AMA Supercross is featured in high-profile stadiums across North America. However, this exciting bar-banging, high-flying sport has its roots on the outdoor, natural terrain tracks of motocross.

When motorcycle racing resumed following World War II, U.S. motorcycle racing focused primarily on flat track, as it had before the war. Races were held on the numerous dirt ovals and horse tracks across the country, along with a limited schedule of AMA National roadracing events. Meanwhile, the first motocross races were being organized in post-war Europe.

In 1947, the Federation Internationale de Motocyclisme (FIM) created the Motocross des Nations, an annual event to determine the World Team Motocross Champions. In 1957, the FIM fully embraced motocross by creating an individual World Motocross Championship Series.

Early motocross machines were primitive by today's standards. They were heavy, underpowered and equipped with rudimentary suspension systems that did little to smooth out the rough terrain. But motocross had two undeniable elements that promised future success: It provided an affordable but highly challenging sport for participants, and offered incredible, up-close action for spectators.

In the late 1960s, the European masters of motocross began to export their talents and technology to North America, where a related discipline of "rough scrambles" had developed independently. In a matter of a few years, motocross had taken hold in America.

The AMA held a variety of amateur and Pro-Am motocross races in the late 1960s. By 1972, American racers had motocross fever, and the AMA established a formal National Championship Motocross Series.

At the time, U.S. riders could only dream of beating their more experienced

European counterparts. But international stars, led by Belgium's Roger DeCoster, gave the Americans an exciting target. The Americans would learn the lessons well enough to dominate the sport. Along the way, they would introduce to the world a new type of motocross racing, one that would change the very face of the sport.

In 1971, the AMA conducted a professional motocross race on a temporary track at Daytona International Speedway. While most motocross races had been held in the remote, rural countryside, Daytona brought motocross to where the fans already were. A year later, the concept was taken a step further—motocross races were conducted in major urban sports stadiums, beginning with the Los Angeles Coliseum. The term "Supercross," a combination of Super Bowl and Motocross, was coined. In the 1980s and 1990s, teams, motorcycle manufacturers, broadcast partners, race facilities and sponsors worked together to bring the sport to new audiences. Top Supercross riders became household names, and off-road motorcycle sales soared.

Today, AMA Supercross is undisputedly the top Supercross series in the world and draws elite rider talent from every corner of the globe. An international cadre of manufacturers target their best equipment and development teams at the series in the quest for Championship titles.

The AMA Supercross Championship is presented in the 450SX class, which features four-stroke 450cc technology. The 250SX class, which showcases riders on four-stroke 250cc motorcycles, is split into Eastern and Western regional divisions, each awarding its own title.

2025 AMA SUPERCROSS SCHEDULE

Dates and locations subject to change. Combined East/West rounds award points toward both the East and West Regional Championships.

| Date | Venue | Location | Region |
|-------------|-----------------------------------|-----------------------|----------------|
| Jan. 11 | Angel Stadium | Anaheim, Calif. | West |
| Jan. 18 | Snapdragon Stadium | San Diego, Calif. | West |
| Jan. 25 | Angel Stadium | Anaheim, Calif. | West |
| Feb. 1 | State Farm Stadium | Glendale, Ariz. | West |
| Feb. 8 | Raymond James Stadium | Tampa, Fla. | East |
| Feb. 15 | Ford Field | Detroit, Mich. | East |
| Feb. 22 | AT&T Stadium | Arlington, Texas | West |
| March 1 | Daytona International Speedway | Daytona Beach, Fla. | East |
| March 8 | Lucas Oil Stadium | Indianapolis, Ind. | East/ West |
| March 22 | Protective Stadium | Birmingham, Ala. | East |
| March 29 | Lumen Field | Seattle, Wash. | West |
| April 5 | Gillette Stadium | Foxborough, Mass. | East |
| April 12 | Lincoln Financial Field | Philadelphia, Pa. | East/ West |
| April 19 | MetLife Stadium | East Rutherford, N.J. | East |
| April 26 | Acrisure Stadium | Pittsburgh, Pa. | East |
| May 3 | Empower Field at Mile High | Denver, Colo. | West |
| May 10 | Rice-Eccles Stadium | Salt Lake City, Utah | East / West |

RACE-RELATED TERMINOLOGY

American Motorcyclist Association (AMA): The sanctioning and officiating body for AMA Supercross.

Aftermarket: Produced by a manufacturer or fabricator other than the original equipment manufacturer.

cc: Cubic centimeters.

Displacement: The volume swept by the piston(s) in each stroke.

Disqualification: The loss of position, points, forfeiture of purse and/or awards earned in one or more races during the event.

Event: An AMA-sanctioned competition scheduled at a facility for one or multiple days and all associated on-track and off-track activity.

Field: All of the Riders that compete in a race.

Heat Race: A qualifying race that determines which Riders advance to the Last Chance Qualifier or Main Event.

Homologation: AMA approval process initiated by manufacturers or distributors of motorcycles. Only approved motorcycles may be utilized in AMA competition.

Last Chance Qualifier (LCQ): A final qualifying race for those Riders who did not qualify from a previous session.

Manufacturer: The original manufacturer of motorcycles (not the distributor).

Marshal: A flagger or observer placed by the Race Steward around the racetrack to assist him in the running of the meet.

Meet: A meeting at which one or more events are held.

Model: A reference to a particular year and name assigned by manufacturers to certain motorcycles.

Motorcycle: A rear wheel driven, two wheeled vehicle that is powered by a single engine for the purpose of racing.

OEM: Original equipment manufacturer.

Official Results: A listing of the final finishing order of an event issued by scoring after the 30-minute protest period has expired.

Paddock: Designated area primarily used for maintenance of event-entered competition motorcycles. May also include parking area for motorcycle transport and support vehicles.

Race Direction: Race Officials responsible for the overall management and direction of all racing competition and activities, rule interpretations, event entries, protests and penalties.

2025 AMA SUPERCROSS NUMBERS

The current champion runs the No. 1 plate, instead of an assigned professional number, when competing in the class or region in which the No. 1 plate was earned. * Career numbers **New career numbers for 2025

| 31 Max Anstie | 65 Lux Turner | 99 Brock Bennett |
| 32* Justin Cooper | 66 Vince Friese | |

WINS BY RIDER NAME

Over time, class names have changed as technical specifications have changed for the premier and support classes. The current premier class is the 450SX class and the support class is the 250SX class. From 2006 to 2011, the premier class was known as the Supercross (SX) class and the support class was known as Supercross Lites (SX Lites). Prior to 2006, the premier class was known as 250cc and the support class was known as 125cc. Support classes are separated into East (E) and West (W) regional championships; over the years, riders from both regions have raced together during both regular season rounds (E/W), or in "Shootouts" at the season finale that may or may not have paid regional championship points.

| YEAR | DATE | CLASS | LOCATION | MACHINE |
|---|-------|---------------------|---------------------|-----------------|
| GREG ALBERTYN, SOUTH AFRICA | | | | |

ALL-TIME WINS (500cc)

From 1974 to 1975, the AMA Supercross Championship included a class for 500cc motorcycles. Other 500cc class wins were recorded in non-series championship events.

AMA SUPERCROSS RULES IN BRIEF

The following section contains excerpts from the Official AMA Supercross Rulebook. For complete rules, consult the official rulebook at www.americanmotorcyclist.com.

GENERAL EQUIPMENT STANDARDS

2.2.1 MOTORCYCLE HOMOLOGATION RULES

- a. Motorcycles used in Competition require homologation approval granted by AMA prior to use in competition. Homologation rules are intended to give freedom to modify or replace some of the parts in the interest of safety, research and development, with constraints imposed to limit cost. Superseded or redesigned parts must be submitted to AMA for review and approval prior to use in competition. These parts must be listed in the current OEM parts list supplied to AMA.
- b. Only motorcycles homologated by AMA may be used in Competition. AMA will only review applications for homologation from motorcycle manufacturers or their distributors or designated representatives.
- c. Once a motorcycle has been homologated, it may be used until such time that the homologated motorcycle no longer complies with the technical rules or a maximum of five years.

MOTORCYCLE SPECIFICATIONS

2.3.1 ENGINES

- a. Engines are restricted to a single cylinder.
- b. Displacement ranges allowed:

| | 450 | 250 |
|-----------------|------------|------------|
| 4-stroke | 249-450cc | 0-250cc |
| 2-stroke | 150-250cc | 0-125cc |

- c. Engine Displacement Measurement Calculation:
 1. Engine displacement shall be recorded in cubic centimeters.
 2. Displacement = $(07854)B^2H$ where B = cylinder bore, and H = cylinder stroke.

2.3.3 WEIGHT

The minimum weight limits are as follows:

| | 450 | 250 |
|-----------------|------------|------------|
| 4-stroke | 220 pounds | 212 pounds |
| 2-stroke | 212 pounds | 194 pounds |

THE RACING PROGRAM

1.6.2 PARTICIPANT RESPONSIBILITIES

- a. Every club, association, company, promoters, rider and all other persons participating in any way connected with an AMA-sanctioned event will be deemed credentialed participants and therefore bound by the Rule Book.

1.6.14 FLAGS AND LIGHTS

- a. The AMA will use flags/lights, as set forth in this Section, providing Competitors

with information while on the racetrack during the Event. A Rider is considered to have received notice when the flag is raised, or when the lights are illuminated, whether or not the Rider has seen the flag/lights.

- b. It is the Rider's responsibility to be aware of their surroundings at all times while on track. Safety is a main priority and Riders must obey all official signals and directions given to them. Any Rider failing to do so may be penalized.
- c. **Red Flag**
 - 1. Indicates the competition session has been stopped.
 - 2. May be displayed anywhere on course.
 - 3. Riders must immediately reduce speed and proceed safely to the area as directed by Race Officials.
- d. **Yellow Flag or Yellow Flashing Light**
 - 1. Indicates a potentially hazardous situation on or near the racetrack. This includes the sighting or cool down laps.
 - 2. Riders must exercise caution.
 - 3. Passing is allowed.
- e. **White Flag with Red Cross or Red Flashing Lights**
 - 1. This flag or a red flashing light may be displayed at the beginning of a triple jump or a series of jumps to indicate a potentially hazardous situation on or near the racetrack in an area that may not be clearly visible to oncoming Riders.
 - 2. This flag indicates a significant safety concern and takes precedence over all other flags.
 - 3. Until the Rider is clear of the incident:
 - i. Riders must follow all directions given by race officials.
 - ii. Passing is prohibited.
 - iii. Riders must traverse all obstacles individually, absolutely NO double, triple, step on/off, etc.
 - iv. Riders must exercise extreme caution and not race or accelerate in an unsafe manner.
 - 4. When displayed on a triple jump, the area of concern is, at minimum, the whole obstacle, i.e., Riders must not jump any section of the triple because a Rider may be down on the face of the triple or after the first or second jump, hidden from view and in a vulnerable position.
 - 5. These rules apply anytime a Rider is on the racetrack, including sighting and cool down laps.
 - 6. Penalties are defined in Section 3.1 Violations and Disciplinary Action. If Race Direction determines that the violation was not blatant or takes place during a sighting or cool down lap, a warning or fine may be issued.
- f. **Blue Flag**
 - 1. Indicates a Rider is about to be overtaken by faster Riders.
 - 2. When conditions allow, the Rider receiving the blue flag must move out of the fast line. Once out of the fast line, Riders must hold their line, must not ride erratically and must not impede the progress of the faster Riders.
 - 3. Riders disregarding the blue flag may be penalized at the discretion of Race Direction.
- g. **Black Flag**
 - 1. Indicates a problem with a motorcycle or disqualification.
 - 2. Riders must carefully reduce speed and proceed around the course to the designated signal area.

3. Black-flagged Riders are not permitted to return to the race course unless cleared by Race Direction.

h. **Checkered Flag**

1. Indicates the end of a competition session.
2. Riders must proceed to the designated track exit.

i. **Courtesy Flags**

1. *Green Flag*: Indicates the start of a race or clear track conditions.
2. *White Flag*: Indicates the final lap of a race.
3. *White and Green Flags Crossed*: Indicates half of the total race distance has been completed.

1.8.1 EVENT OVERVIEW

- a. The AMA Supercross Championship events are organized according to an established procedure/model, as follows.

1. Standard Format:

450

Free Practices
Timed Qualifiers
Heat Races
Last Chance Qualifier
Main Event

250

Free Practices
Timed Qualifiers
Heat Races
Last Chance Qualifier
Main Event

1. Triple Crown Format:

450

Free Practices
Timed Qualifiers
Last Chance Qualifier
Race 1
Race 2
Race 3

250

Free Practices
Timed Qualifiers
Last Chance Qualifier
Race 1
Race 2
Race 3

1.8.11 RESTARTS AND RED FLAG PROCEDURES

- a. Any race start or restart will be considered an official part of the event even if the start or restart does not result in a lap being completed by the leader. Therefore, any infractions will be deemed valid and ruled upon accordingly.
- b. In all cases, the remaining race distance following a restart will be at least three (3) laps.
- c. Riders who were not present at the starting gate for the original start of a race and Riders who failed to join the race before a red flag are barred from any subsequent restarts.
- d. Riders who are present for a restart but are unable to start due to a stalled motorcycle may join the race from the starting area at any time after the race is restarted.
- e. A motorcycle that has left the stadium floor or infield of a speedway during a race is barred from any subsequent restarts.
- f. Riders who are unable to remove themselves from an incident area under their own power and / or demonstrate behavior requiring medical attention, causing any session to be red flagged, may not resume any on-track activity until cleared by the Chief Medical Officer as medically fit to compete.

-
- g. Riders who are unable to join the race by this procedure are barred from any subsequent restarts.
 - h. Penalties for violations that occurred prior to a red flag will be assessed at the completion of a race, not during the restart.
 - i. In the event of a red flag during practice or qualifying:
 1. All Riders must stop racing, safely reduce speed and proceed with caution to the starting area or other area as directed by Race Officials.
 2. When a practice or qualifying session is restarted, the group of Riders on track during the red flag incident will be allowed to complete the balance of their session.
 - j. In the event of a red flag during races, a Red Flag Downtime period may be utilized:
 1. Red flags that occur during races may result in a ten-minute (10:00) Red Flag Downtime prior to a restart.
 2. The Red Flag Downtime will begin when the red flag and/or red lights are displayed as recorded by timing and scoring.
 3. If the circuit is deemed to be race ready prior to the expiration of the ten minutes and all eligible machines are ready to restart, Race Direction may restart the race immediately.
 - k. When a race is stopped before the leader completes three (3) laps, the race will be deemed a complete restart, and the following procedures will apply:
 1. A red flag will be displayed.
 2. All Riders must stop racing and proceed with caution back to the starting gate or other area as directed by Race Officials.
 3. The race will be deemed a complete restart with the same number of laps and/or time as originally scheduled and will be restarted as soon as possible.
 4. Riders will restart from the gate in their original positions.
 5. Repairs or adjustments must be made in the Staging Area or behind the Starting Gate only. No repairs may be performed on the Starting Gate.
 6. In the case of a Main Event, if it is found impossible to restart then this Main Event will be declared cancelled and not count for the Championship.
 - l. When a race is stopped after the leader completes three (3) laps but prior to time expiring on the race clock, the following procedures will apply:
 1. A red flag will be displayed, and the Red Flag Downtime period will begin.
 2. All Riders must stop racing and proceed with caution to the starting area directly in front of their original starting gate or other area as directed by Race Officials.
 3. Repairs or adjustments may only be made in the starting area.
 4. The race will be restarted as soon as possible from a staggered standing start in the starting area.
 5. Scoring Procedures
 - i. Scoring will revert to the last lap completed by all active Riders on the Lead Lap. Riders involved in the red flag will be considered active Riders for the purpose of establishing the running order, i.e. if all active riders have crossed the finish line to complete their third lap and are working the fourth lap at the time of the Red Flag, the starting order would be set with the order from the completion of the third lap.
 - ii. Total race time will be stopped during the red flag period and will resume when the race is restarted. Only green flag periods will be used to calculate total race time.
 - iii. The race will be restarted with the remaining number of laps and/or time.
 6. Staggered Restart Procedure

-
- i. The staggered starting line will be located at the end of the starting straight near the first turn.
 - ii. The Rider in first position will be placed near the staggered starting line followed by the rest of the Riders in an angled line continuing back towards the starting gate.
 - iii. Riders not ready to take their position in line will be placed last.
 - iv. Once all Riders are in position, a 30-second board will be held upright for 30 seconds. After the 30-second board is turned sideways, the starter will then display a green flag to signal the restart.
 - v. Riders may not overtake the Rider in front of them until they pass the designated staggered starting line, or they will be deemed to have jumped the restart.
 - vi. Eligible Riders who are unable to participate in the restart due to a stalled motorcycle or continued repairs may join the race from the starting area at any time.
 - vii. Defined Staggered Restart Violations and Penalties
 - a) Any Rider that is deemed to have jumped the start on a staggered restart will be penalized for positions gained plus an additional two positions in the results for that race.
- m. When a race is stopped after time has expired on the race clock but prior to the checkered flag being displayed, the race will be deemed complete, and the following procedures will apply:
1. A red flag will be displayed. All Riders must stop racing and proceed with caution back to the paddock.
 2. Scoring will revert to the running order on the last lap completed by all active Riders on the Lead Lap to determine finishing positions.
 3. The race will be deemed complete and provisional results will be posted.
 4. In the case of a Heat or Last Chance Qualifier, the riders will qualify for the Main Event or be relegated to the Last Chance Qualifier according to these results.
 5. In the case of a Last Chance Qualifier, the top four riders will qualify for the Triple Crown Races or Main Event according to these results. The remaining riders are eliminated.
 6. In the case of a Main Event, full championship points will be awarded.

1.8.13 OVERALL RESULTS FOR TRIPLE CROWN RACES

- a. Olympic-style scoring will be used to assign points according to the finishing positions of the Riders in each Race. The Rider who finishes in first place is awarded one point, the Rider who finishes in second place is awarded two points, and so on, with the Rider who finishes in last place being awarded the highest number of points.
- b. To determine the Overall Results:
 1. The points that each Rider earned in the three Races will be added together.
 2. The Rider with the lowest number of total points from Race 1 + Race 2 + Race 3 will be declared the overall winner in each class.
 3. The rest of the Riders in each class will then be ranked based on their total points to determine the overall finishing order.
 4. If two or more Riders have the same number of points, the better finishing position from the third Race will break the tie.

1.8.14 AWARDING OF CHAMPIONSHIP POINTS

- a. AMA Supercross Championship Points will be assigned to each Rider according to the Rider's position in the Overall Results for Each Event.
- b. When the results of a Supercross Main Event or Triple Crown Overall are declared official, AMA Supercross Championship Points will be awarded down to a maximum of 21 places.
- c. AMA Supercross Championship Points will be awarded according to the following schedule:

| Finish Position | Points | | Finish Position | Points |
|------------------------|---------------|--|------------------------|---------------|
| 1 | 25 | | 12 | 10 |
| 2 | 22 | | 13 | 9 |
| 3 | 20 | | 14 | 8 |
| 4 | 18 | | 15 | 7 |
| 5 | 17 | | 16 | 6 |
| 6 | 16 | | 17 | 5 |
| 7 | 15 | | 18 | 4 |
| 8 | 14 | | 19 | 3 |
| 9 | 13 | | 20 | 2 |
| 10 | 12 | | 21 | 1 |
| 11 | 11 | | 22 | 0 |

| 9 | Donnie Cantaloupi, Stockton, CA | Yamaha | 122 |
| 10 | Chuck Sun, Sherwood, OR | Honda | 113 |

Mark Barnett is remembered as a 125cc specialist for good reason. The Illinois native won the AMA 125cc National Championship in 1980, 1981 and 1982. The 1981 AMA Supercross Championship is Barnett's only major title on a 250cc machine. He clinched the AMA No. 1 plate that year with a convincing victory before more than 63,000 fans at the prestigious "Superbowl of Motocross" in Los Angeles on July 11, 1981. (Photo: Suzuki)

1980 AMA SUPERCROSS CHAMPIONSHIP

PAST CHAMPIONS

The AMA held Supercross races in 1972 and 1973, but no formal series was recognized in either of these years and no champion was declared. Over time, class names have changed to reflect different machinery in the premier and support classes. The current premier class is the 450SX class and the support class is the 250SX class. From 2006 to 2011, the premier class was known as the Supercross class (SX) and the support class was known as Supercross Lites (SX Lites). Prior to 2006, the premier class was known as 250cc and the support class was known as 125cc. The 1975 season was the last year for the 500cc class.
